Notes: Where roads have been identified in a platted subdivision, and where the plat specifically dedicates roads in the subdivision to the Public, or to the County or State for the use and benefit of the Public, the County may subsequently "accept" the roads by use of this form. Beware that in some cases, roads may be "platted" but never actually opened. Over the years, landowners may have built or otherwise encroached upon the platted roads. If you accept these roads for maintenance, you will have more expense in actually placing the roads into use. In most cases, I would recommend only accepting roads that are actually in existence and which have been in longstanding use. Preferably, the roads would be "brought up to standards" by the landowners in the subdivision before the County would assume maintenance.

AGENDA ITEM FOR ACCEPTANCE OF DEDICATED SUBDIVISION ROADS
