Re: Cleophas LN

Linda,

It recently came to our attention that the non-county or false road identified in the MSAG as Cleophas LN is in fact not Cleophas LN, but possibly a road or drive on private property. Commissioner Purvis states that Cleophas LN does exist, and while the road name sign may be up at that location identifying the road as Cleophas LN, the true Cleophas LN is located further down Community DR located somewhere between Rafford RD and Bo Peep. Commissioner Purvis states that if you will contact him, he will help you identify the correct location of Cleophas LN.

I'm turning this information over to you for further investigation and clarification so that we may correct, if need be, on a future MSAG update.

Please keep me updated on your findings.

THANKS.
